Amin Nepali

FULL-STACK DEVELOPER | NETWORKING ENTHUSIAST

Belbari, Morang, Nepal | aminnepali.com.np | github.com/amin-nepali
linkedin.com/in/amin-nepali-84664419b

PROFILE

I build practical web applications and thoughtful interfaces, with a foundation in Python, Django, and modern frontend development. I also enjoy networking, automation, and solving real-world technical problems.

TECHNICAL TOOLKIT

Programming

Python (OOP, data structures), Java, C++, TypeScript, JavaScript (ES6+), C# / VB.NET

Web ecosystem

Django (MVT, ORM, REST APIs), HTML5, CSS3, Tailwind CSS, DOM manipulation

Networking and infrastructure

CCNA core, subnetting, OSPF, VLANs, NAT, DHCP, port security, GNS3, Packet Tracer

Databases and tools

MySQL, MongoDB, SQLite, Git, GitHub, VS Code, Android Studio, cPanel hosting

SELECTED ENGINEERING PROJECTS

Campus Management System — Python and TypeScript

A role-based application coordinating workflows for students, teachers, parents, and administrators.
github.com/amin-nepali/campus-management-system

CFAM (Call Family) — React and TypeScript

A communication app concept for private chat, image sharing, and voice or video calls.
github.com/amin-nepali/CFAM

OmniMail Central — JavaScript and Firebase

A unified inbox dashboard concept for bringing notifications from multiple accounts together.
github.com/amin-nepali/omnimail-central

Experience & credentials

Teaching, technical training, and verified certificates

EXPERIENCE AND TRAINING

Computer Science Teacher

Morang, Nepal

Dangihat Little Buddha Boarding School

Introduced students to computer architecture, computing fundamentals, and introductory programming.

Web Development Trainee

Academic training

Sukuna Multiple Campus | Django course

Completed technical coursework in Django Model-View-Template architecture and web application development.

VERIFIED CERTIFICATIONS

CCNA Certification

Verification ID 13750

Foundational routing, switching, IP connectivity, and security infrastructure.

Web Design Certificate

Verification ID 7098

Practical learning in visual hierarchy, user experience, and responsive layouts.

EDUCATION AND INTERESTS

Sukuna Multiple Campus

Bachelor's graduate. Interested in problem-solving, web applications, object-oriented programming, networking, and learning by building.
